About Kalintis Healthcare

Kalintis Healthcare is a vision, focused & spirited, to create a health conscious Pharmaceuticals company with a simple idea, Human Wellness.

We are developing and manufacturing specialized Pharmaceutical Intermediates, Advanced Intermediates, Complex Molecules & Fine Chemicals, and Active Pharmaceutical Ingredients in our state of the art R&D center, and Commercial Operations.

Members of our organization have spent decades in the pharmaceutical industry and continue to excel in leadership at Kalintis Healthcare. We are continuously challenging the definition of success and quality.

Our objective is to develop the highest quality products for the global pharmaceutical industry and create relationships based on appreciation. Our technologies and development process continue to evolve with our client's requirements. We have a solid foundation for R&D and commercial development, and elasticity to support our relationships.
